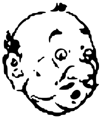
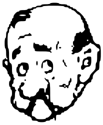
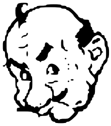
DIFFERENT EXPRESSIONS OF THE FACE



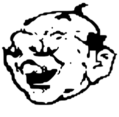
I think it's fun to create a little face and then see what can be made of it. Expression will be of great value. You will want to draw it continually of action in several pictures.



In surprise, anxiety, pity, sadness, fear, anticipation, laughter, the brows are raised. The brows are important. We speak of knitted brow, "worried brow," troubled brow, etc. Study your own



In doubt, perplexity, suspicion, disgust, disdain, annoyance, anger, fury, concentration and in hilarious laughter, the brows point down. There are many subtle emotions. Study them



When it's all said and done you must "feel" the expression you want. Make faces at yourself in a mirror. If anybody catches you, claim that you are smart and they are crazy.
