

/upload-2016.php

Users can find the API key on their [profile page](#).

Example:

```
curl -F user_name=user -F key=api-key-from-profile-page -F  
title="some title" -F tags="tag1, tag2" -F description="some  
description" -F nsfw=0 -F svg=@./some_file.svg https://  
openclipart.org/upload-2016.php
```
