

A black and white mosaic depicting a skeleton. The skeleton is standing upright, facing forward. It has a skull with two dark eye sockets and a small, dark, triangular shape in its mouth. The ribcage is clearly visible. The skeleton's right arm is raised, holding a chalice (a cup with a stem) in its hand. Its left arm is also raised, holding a host (a small, round, flat object) in its hand. The skeleton's legs are long and thin, ending in feet with five toes each. The entire mosaic is composed of small, square tiles. The background is a light color, and the skeleton is rendered in dark lines. The mosaic is framed by a dark border.
