

Type 12-17-S *Noname*

Nominal voltage: 12V
Nominal capacity: 17Ah

Constant voltage charge
Standby use: 13,6V-13,8V
Cyclic use : 14,1-14,4V
Max.initial current: less 5,1A

Caution:
Avoid short-circuit
Avoid charging under airtight conditions
Recharge after use
Don't disassemble, avoid heating above 50°C

NONSPILLABLE
Value regulated lead-acid rechargeable battery
Designed in some country

Pb
