

# Doors

A problem has been detected and Doors has been shut down to prevent damage to your computer.

BACA\_INDEX\_MISMATCH

Check to make sure any new hardware or software is properly installed. If this is a new installation, ask your hardware or software manufacturer for any Doors updates you might need.

If problems continue, disable or remove any newly installed hardware or software. Disable BIOS memory options such as caching or shadowing. If you need to use Safe Mode to remove or disable components, restart your computer, press F8 to select Advanced Startup Options, and then select Safe Mode.
